New to DME? How to Begin Billing Medicare

Hello! So, you're new to Medicare and you want to know how to start billing DME. There are a few steps you need to complete before you can get started. CGS has a New Supplier Welcome Center that will help you with these steps. Here's how you get to it:

1. Go to the [CGS website](http://www.cgsmedicare.com) (www.cgsmedicare.com).
2. Choose your contract, JB or JC.
3. Go to the left side navigation menu and click on Education.
4. Click on New Supplier Welcome Center either below the menu or on the page to the right.

You must be registered with the National Provider Enrollment (NPE) contractors to bill DME. The NPE contractors process Medicare Enrollment applications for DMEPOS suppliers to make sure they meet all supplier standards and enrollment requirements.

Once you have completed the supplier enrollment process, you will need to complete forms for electronic transactions with the CEDI, the Common Electronic Data Interchange. This is how you get the software and other information so that you can send your claims to Medicare electronically. Suppliers must submit their claims electronically unless they have a specific waiver called the Administrative Simplification Compliance Act, or ASCA, waiver.

Now you are ready to start billing DME!

We also encourage you to attend our educational events including the following live webinars: Welcome to Medicare DME, Medicare 101 and 102, and our Documentation Requirements series! You can find our full Calendar of Events on the Education page of our website.

If this tutorial has helped you, go ahead and like this video and subscribe to the channel. We'll see you in our webinars soon!
