**Introduction**

The CGS Jurisdiction 15 (J15) Part A Voice Response (IVR) System (**1.866.289.6501**) is designed to assist Medicare Part A providers in obtaining answers to numerous inquiries through this self-service option. In addition to retrieving status and details of submitted claims and appeals, you may review beneficiary eligibility information and check information via the CGS J15B IVR system. You can also obtain the following:

- Medicare deductible status and therapy limitations;
- Medicare Secondary Payer information;
- Home Health and Hospice information;
- Hospital and Skilled Nursing Facility (SNF) days information;
- ESRD and Hepatitis B screening information;
- Other claim processing information.

Our customer service representatives (CSRs) continue to be available to answer **difficult, claim specific questions**, in addition to other **complex inquiries** that a provider might encounter. **However, please note that the CSRs will only answer questions that cannot be answered by the IVR.** The Centers for Medicare & Medicaid Services (CMS) *Medicare Contractor Beneficiary and Provider Communications Manual, (Pub. 100-09), Chapter 6, Section 50.1* (<http://www.cms.gov/manuals/downloads/com109c06.pdf>) states:

Providers shall be required to use the IVR system to access claim status and beneficiary eligibility information. CSRs shall refer providers back to the IVR system if they have questions about claims status or eligibility that can be handled by the IVR system. CSRs may provide claims status and/or eligibility information if it is clear that the provider cannot access the information through the IVR system because the IVR system is not functioning.
