Disclosure Statement

The Centers for Medicare & Medicaid Services (CMS) is committed to maintaining the integrity and security of health care data in accordance with applicable laws and regulations. Disclosure of Medicare claims is restricted under the provisions of the Privacy Act of 1974 and Health Insurance Portability and Accountability Act of 1996. This Companion Guide is to be used for conducting Medicare business only.

Preface

This Companion Guide (CG) to the ASC X12N Technical Report Type 3 (TR3) Version 005010 adopted under Health Insurance Portability and Accountability Act of 1996 (HIPAA) clarifies and specifies the data content when exchanging transactions electronically with Medicare. Transmissions based on this CG, used in tandem with the TR3, are compliant with both ASC X12N syntax and those guides. This CG is intended to convey information that is within the framework of the TR3 adopted for use under HIPAA. This CG is not intended to convey information that in any way exceeds the requirements or usages of data expressed in the TR3.

This CG contains instructions for electronic communications with the publishing entity, as well as supplemental information for creating transactions while ensuring compliance with the associated ASC X12N TR3s and the Council for Affordable Quality Healthcare – Committee on Operating Rules for Information Exchange (CAQH CORE) companion guide operating rules.

In addition, this CG contains the information needed by Trading Partners to send and receive electronic data with the publishing entity, who is acting on behalf of CMS, including detailed instructions for submission of specific electronic transactions. The instructional content is limited by ASC X12N's copyrights and Fair Use statement.

1 Introduction

This document is intended to provide information from the author of this guide to Trading Partners to give them the information they need to exchange Electronic Data Interchange (EDI) data with the author. This includes information about registration, testing, support, and specific information about control record setup.

An EDI Trading Partner is defined as any Medicare customer (e.g., provider/supplier, billing service, clearinghouse, or software vendor) that transmits to, or receives electronic data from Medicare. Medicare's EDI transaction system supports transactions adopted under the Health Insurance Portability and Accountability Act of 1996 (HIPAA) as well as additional supporting transactions as described in this guide.

Medicare Fee-For-Service (FFS) is publishing this Companion Guide (CG) to clarify, supplement, and further define specific data content requirements to be used in conjunction with, and not in place of, the ASC X12N Technical Report Type 3 (TR3) Version 005010 for all transactions mandated by HIPAA and/or adopted by Medicare FFS for EDI.

This CG provides communication, connectivity and transaction-specific information to Medicare FFS Trading Partners and serves as the authoritative source for Medicare FFS-specific EDI protocols.

Additional information on Medicare FFS EDI practices are referenced within Internet-only Manual (IOM) Pub. 100-04 Medicare Claims Processing Manual:

- Chapter 24 - General EDI and EDI Support, Requirements, Electronic Claims, and Mandatory Electronic Filing of Medicare Claims. This document can be accessed at <https://www.cms.gov/Regulations-and-Guidance/Guidance/Manuals/downloads/clm104c24.pdf>.

1.1 Scope

EDI addresses how Trading Partners exchange professional and institutional claims, claim acknowledgments, claim remittance advice, claim status inquiry and responses, and eligibility inquiry and responses electronically with Medicare. This CG also applies to ASC X12N 837P transactions that are being exchanged with Medicare by third parties, such as clearinghouses, billing services or network service vendors.

This CG provides technical and connectivity specification for the 837 Health Care Claim: Professional transaction Version 005010.

1.2 Overview

This CG includes information needed to commence and maintain communication exchange with Medicare. In addition, this CG has been written to assist you in designing and implementing the ASC X12N 837P transaction standard to meet Medicare's processing standards. This information is organized in the sections listed below:

- **Getting Started:** This section includes information related to hours of operation, data services, and audit procedures. Information concerning Trading Partner registration and the Trading Partner testing process is also included in this section.
- **Testing and Certification Requirements:** This section includes detailed transaction testing information as well as certification requirements needed to complete transaction testing with Medicare.
- **Connectivity/Communications:** This section includes information on Medicare’s transmission procedures as well as communication and security protocols.
- **Contact Information:** This section includes EDI customer service, EDI technical assistance, provider services and applicable websites.
- **Control Segments/Envelopes:** This section contains information needed to create the Interchange Control Header/Trailer (ISA/IEA), Functional Group Header/Trailer (GS/GE), and Transaction Set Header/Trailer (ST/SE) control segments for transactions to be submitted to or received from Medicare.
- **Specific Business Rules and Limitations:** This section contains business rules and limitations specific to the 837P Medicare Transaction.
- **Acknowledgments and Reports:** This section contains information on all transaction acknowledgments sent by Medicare and report inventory.
- **Trading Partner Agreement:** This section contains information related to implementation checklists, transmission examples, Trading Partner Agreements and other resources.
- **Transaction Specific Information:** This section describes the specific CMS requirements over and above the information in the ASC X12N 837P TR3.

2 Getting Started

2.1 Working Together

CGS Administrators, LLC (CGS) is dedicated to providing communication channels to ensure communication remains constant and efficient. CGS has several options to assist the community with their electronic data exchange needs. By using any of these methods CGS is focused on supplying the Trading Partner community with a variety of support tools.

An EDI help desk is established for the first point of contact for basic information and troubleshooting. The help desk is available to support most EDI questions/incidents while at the same time being structured to triage each incident if more advanced research is needed. Email is also accessible as a method of communicating with CGS EDI. The email account is monitored by knowledgeable staff ready to assist you. When communicating via email, please exclude any protected health information (PHI) to ensure security is maintained. In addition to the CGS EDI help desk and email access, see Section 5 for additional contact information.

CGS also has several external communication components in place to reach out to the Trading Partner community. CGS posts all critical updates, system issues and EDI-specific billing material to their website, <https://www.cgsmedicare.com/>. All Trading Partners are encouraged to visit this page to ensure familiarity with the content of the site. CGS also distributes EDI pertinent information in the form of an EDI newsletter or comparable publication, which is posted to the website every three months. In addition to the website, a distribution list has been established in order to broadcast urgent messages. Please register for CGS’s distribution list by https://www.cgsmedicare.com/medicare_dynamic/ls/001.asp.

Specific information about the above-mentioned items can be found in the following sections.

2.2 Trading Partner Registration

An EDI Trading Partner is any entity (provider, billing service, clearinghouse, software vendor, employer group, financial institution, etc.) that transmits electronic data to, or receives electronic data from, another entity.

Medicare FFS and CGS support many different types of Trading Partners or customers for EDI. To ensure proper registration, it is important to understand the terminology associated with each customer type:

- **Submitter** – the entity that owns the submitter ID associated with the health care data being submitted. It is most likely the provider, hospital, clinic, supplier, etc., but could also be a third party submitting on behalf of one of these entities. However, a submitter must be directly linked to each billing National Provider Identifier (NPI). Often the terms submitter and Trading Partner are used interchangeably because a Trading Partner is defined as the entity engaged in the exchange or transmission of electronic transactions. Thus, the entity that is submitting electronic administrative transactions to CGS is a Medicare FFS Trading Partner.
- **Vendor** – an entity that provides hardware, software, and/or ongoing technical support for covered entities. In EDI, a vendor can be classified as a software vendor, billing or network service vendor, or clearinghouse.
- **Software Vendor** – an entity that creates software used by Trading Partners to conduct the exchange of electronic transactions with Medicare FFS.
- **Billing Service** – a third party that prepares and/or submits claims for a Trading Partner.
- **Clearinghouse** – a third party that submits and/or exchanges electronic transactions (claims, claim status or eligibility inquiries, remittance advice, etc.) on behalf of a Trading Partner.
- **Network Service Vendor** – a third party that provides connectivity between a Trading Partner and CGS.

Medicare requires all trading partners to complete EDI registration and sign an EDI Enrollment form. The EDI enrollment form designates the Medicare contractor and/or CEDI as the entity they agree to engage in for EDI and ensures agreement between parties to implement standard policies and practices to ensure the security and integrity of information exchanged.

Entities processing paper do not need to complete an EDI registration.

For EDI enrollment information, please visit the CGS EDI Web page at <http://www.cgsmedicare.com/partb/edi/enrollment.html>.

Under HIPAA, EDI applies to all covered entities transmitting the following HIPAA-established administrative transactions: 837I and 837P, 835, 270/271, 276/277, and the National Council for Prescription Drug Programs (NCPDP) D.O. Additionally, Medicare Administrative Contractors (MACs) and Common Electronic Data Interchange (CEDI) will use the TA1 Interchange Acknowledgment (TA1), 999 Implementation Acknowledgment (999), and 277 Claim Acknowledgement (277CA) error-handling transactions.

Medicare requires that CGS furnish information on EDI to new Trading Partners that request Medicare claim privileges. Additionally, Medicare requires CGS to assess the capability of entities to submit data electronically, establish their qualifications (see test requirements in Section 3), and enroll and assign submitter EDI identification numbers to those approved to use EDI.

A Trading Partner must obtain an NPI and furnish that NPI to CGS prior to completion of an initial EDI Enrollment Agreement and issuance of an initial EDI number and password by that contractor. CGS is required to verify that NPI is on the Provider Enrollment Chain and Ownership System (PECOS). If the NPI is not verified on the PECOS, the EDI Enrollment Agreement is denied, and the Trading Partner is encouraged to contact CGS

Trading Partner enrollment department (for Medicare Part A and Part B Trading Partner) or the National Supplier Clearinghouse (for Durable Medical Equipment [DME] suppliers) to resolve the issue. Once the NPI is properly verified, the Trading Partner can reapply the EDI Enrollment Agreement.

A Trading Partner's EDI number and password serve as an electronic signature and the Trading Partner would be liable for any improper usage or illegal action performed with it. A Trading Partner's EDI access number and password are not part of the capital property of the Trading Partner's operation and may not be given to a new owner of the Trading Partner's operation. A new owner must obtain their own EDI access number and password.

If Trading Partners elect to submit/receive transactions electronically using a third party such as a billing agent, a clearinghouse, or network services vendor, then the third party must sign an agreement to meet the same Medicare security and privacy requirements that apply to the Trading Partner in regard to viewing or using Medicare beneficiary data. These agreements are not to be submitted to Medicare but are to be retained by the Trading Partner. Trading Partners will notify CGS which third party agents they will be using on their EDI Enrollment form.

Third parties are required to register with CGS by completing the third-party agreement form. This will ensure that their connectivity is completed properly, however they may need to enroll in mailing lists separately in order to receive all publications and email notifications.

Additional third-party billing information can be found at <https://www.cgsmedicare.com/partb/edi/enrollment.html>.

Trading Partners must also be informed that they are not permitted to share their personal EDI access number and password with any billing agent, clearinghouse, or network service vendor. Trading Partners must also not share their personal EDI access number with anyone on their own staff who does not need to see the data for completion of a valid electronic claim, to process a remittance advice for a claim, to verify beneficiary eligibility, or to determine the status of a claim. No other non-staff individuals or entities may be permitted to use a Trading Partner's EDI number and password to access Medicare systems. Clearinghouse and other third-party representatives must obtain and use their own unique EDI access number and password from CGS. For a complete reference to security requirements, see Section 4.4.

2.3 Trading Partner Certification and Testing Process

- To sign up complete the J15 Communications and the enrollment form located on our website: <https://www.cgsmedicare.com/partb/edi/enrollment.html>.
- What to expect throughout the process. Once CGS provides the submitter ID to a Trading Partner, a test file should be submitted to CGS containing at least 25 claims with a T in the ISA15 field.
- Once the test file is submitted, verify the file received an accepted 999 and 277CA. Once an error free 277CA populates, the EDI helpdesk should be contacted to move the submitter ID into production.

3 Testing and Certification Requirements

3.1 Testing Requirements

All submitters must produce accurate electronic test files before being allowed to submit claim transactions in production. Test claims are subject to ASC X12N standard syntax and Implementation Guide (IG) semantic data edits. Documentation will be provided when this process detects errors.

- Standard syntax testing validates the programming of the incoming file and includes file layout, record sequencing, balancing, alpha-numeric/numeric/date file conventions, field values, and relational edits. Test files must pass 100 percent of the standard syntax tests before submission to production is approved.
- IG Semantic Data testing validates data required for claims processing, e.g., procedure/ diagnosis codes, modifiers. A submitter must demonstrate, at a minimum, 95 percent accuracy rate in data testing before submission in production is approved where, in the judgment of CGS, the vendor/submitter will make the necessary correction(s) prior to submitting a production file. For MACs, the minimum 95 percent accuracy rate includes the front-end edits applied implementation guide editing module at <https://www.cgsmedicare.com/partb/edi/index.html>
 - Test results will be provided to the submitter within three business days; during HIPAA version transitions this time period may be extended, not to exceed ten business days.

Many submitters use the same software, or the same clearinghouse to submit their electronic transactions to Medicare. Vendors may elect to have a Trading Partner test their software for approval and eliminate every user testing.

Trading Partners who submit transactions directly to more than one A/B MAC, and/or CEDI must contact each A/B MAC with whom they exchange EDI transactions and/or Common Electronic Data Exchange (CEDI) to inquire about the need for supplemental testing whenever they plan to begin to use an additional EDI transaction, different or significantly modified software for submission of a previously used EDI transaction, or before a billing agent or clearinghouse begins to submit transactions on behalf of an additional Trading Partner. The individual A/B MAC and/or CEDI may need to retest at that time to re-establish compatibility and accuracy, particularly if there will also be a change in the telecommunication connection to be used.

Billing services and clearinghouses are not permitted to begin to submit or receive EDI transactions on behalf of a Trading Partner prior to submission of written authorization by the Trading Partner that the billing agent or clearinghouse has been authorized to handle those transactions on the Trading Partner's behalf. See Section 2.2 for further information on EDI enrollment.

3.2 Certification Requirements

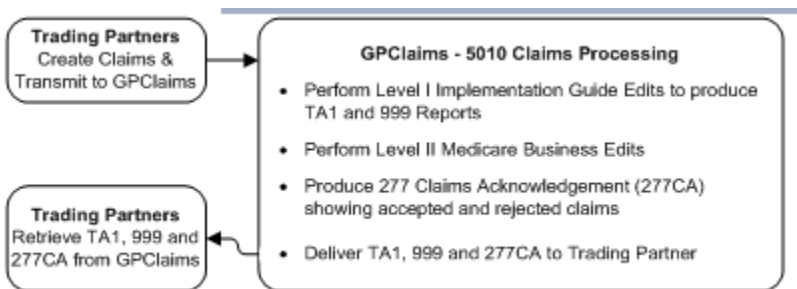

Medicare FFS does not certify Trading Partners. However CGS does certify vendors, clearinghouses, and billing services by conducting testing with them and maintaining an approved vendor list that can be accessed at:

4 Connectivity / Communications

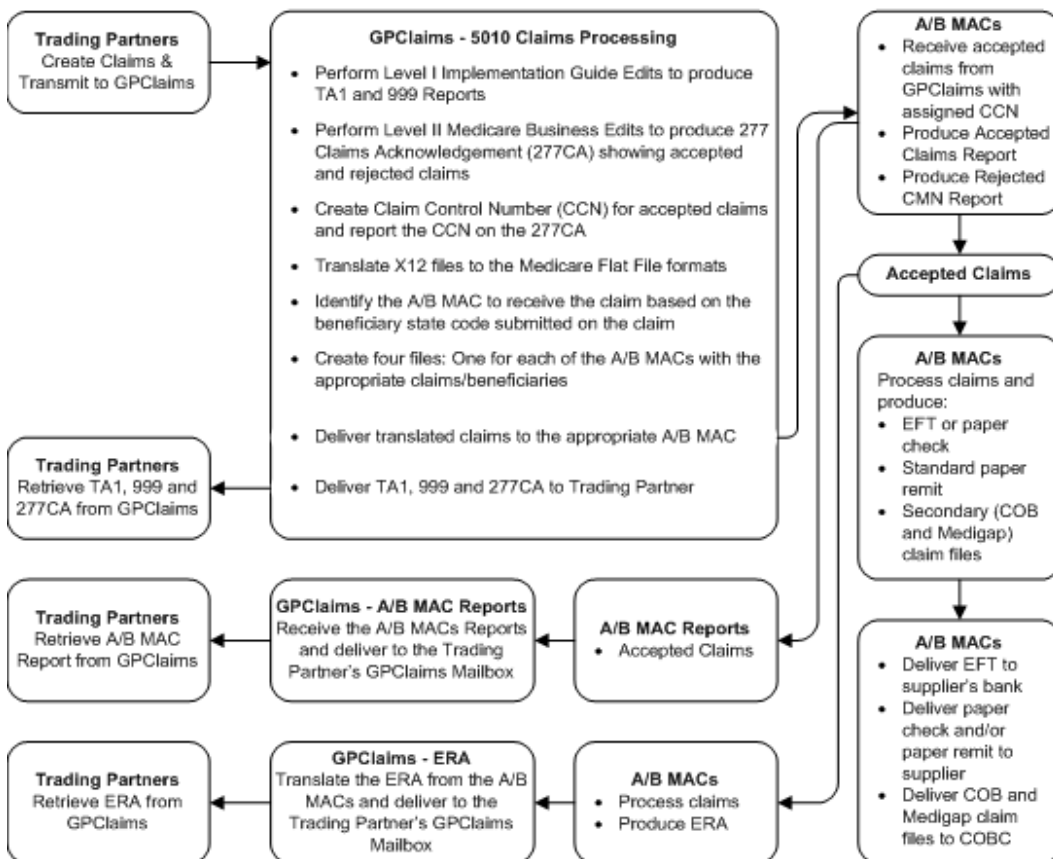

4.1 Process Flows

The following diagram illustrates how ANSI ASC X12 electronic transactions flow into and out of GPNET, CGS/Palmetto GBA's EDI Gateway.

4.2 Transmission

Please see the GpNet Communications Manual posted under <https://www.cgsmedicare.com/partb/edi/index.html>

The connectivity specifications are located at the following link http://www.cgsmedicare.com/pdf/gpnet_comm_manual.pdf.

4.2.1 Re-transmission Procedures

CGS does not require any identification of a previous transmission of a claim. All claims should be marked as original.

4.3 Communication Protocol Specifications

Please see the GpNet Communications Manual posted under the EDI User Guides webpage at <https://www.cgsmedicare.com/partb/edi/index.html>

NOTE: Internet connectivity is only available using our CAQH CORE connectivity method for the following transactions:

- 276: ASC X12 Health Care Claim Status Request
- 277: ASC X12 Health Care Information Status Notification
- 835: ASC X12 Health Care Claim Payment/ Advice
- 999: ASC X12 Implementation Acknowledgment For Health Care Insurance

Under the internet portal demonstration, for select transaction and with prior CMS approval

4.4 Security Protocols and Passwords

All Trading Partners must adhere to CMS information security policies; including, but not limited to, the transmission of electronic claims, claim status, receipt of the remittance advice, or any system access to obtain beneficiary PHI and/or eligibility information. Violation of this policy will result in revocation of all methods of system access. CGS is responsible for notifying all affected Trading Partners as well as reporting the system revocation to CMS. Additional information can be found at: <https://www.cms.gov/Research-Statistics-Data-and-Systems/CMS-Information-Technology/CIO-Directives-and-Policies/CIO-IT-Policy-Library-Items/STANDARD-ARS-Acceptable-Risk-Safeguards.html>.

- Password guidelines are provided with receipt of initial passwords from CGS.
- CMS' information security policy strictly prohibits the sharing or loaning of Medicare assigned IDs and passwords. Users should take appropriate measures to prevent unauthorized disclosure or

modification of assigned IDs and passwords. The Trading Partner should protect password privacy by limiting knowledge of the password to key personnel. The password should be changed when there are any personnel changes.

- The submitter ID and Password are required to transmit files to CGS. Please see our GPNET communications manual posted under the EDI user Guides webpage at <https://www.cgsmedicare.com/partb/edi/index.html>
- Password guidelines are provided with receipt of initial passwords. Please contact the EDI helpdesk for assistance with passwords and resets.

6 Control Segments / Envelopes

Enveloping information must be as follows:

Table 3 – Control Segments / Envelope Requirements

Page #	Element	Name	Codes/Content	Notes/Comments
	ISA	Interchange Control Header		
C.4	ISA01	Authorization Information Qualifier	00	Medicare expects the value to be 00.

Page #	Element	Name	Codes/Content	Notes/Comments
C.4	ISA02	Authorization Information		ISA02 shall contain 10 blank spaces.
C.4	ISA03	Security Information Qualifier	00	Medicare expects the value to be 00 and ISA04 shall contain 2 blank spaces.
C.4	ISA04	Security Information		Medicare does not use Security Information and will ignore content sent in ISA04.
C.4	ISA05	Interchange ID Qualifier	27, ZZ	Must be "27" or "ZZ".
C.4	ISA06	Interchange Sender ID		MAC or CEDI assigned Submitter ID. This is also required in the GS02.
C.5	ISA07	Interchange ID Qualifier	27, ZZ	Must be "27" or "ZZ".
C.5	ISA08	Interchange Receiver ID		MAC contract number Ohio Part B 15202 Home Health & Hospice 15004 Ohio Part A 15201 Kentucky B 15102 Kentucky Part A 15101
C.5	ISA11	Repetition Separator		Must be present.
C.6	ISA14	Acknowledgement Requested	1	Medicare requires submitter to send code value 1 – Interchange Acknowledgment Requested (TA1).
	GS	Functional Group Header		
C.7	GS02	Application Sender Code		Submitter number assigned by CGS.
C.7	GS03	Application Receiver's Code		MAC contract number Ohio Part B 15202 Home Health & Hospice 15004 Ohio Part A 15201 Kentucky Part B 15102 Kentucky Part A 15101
C.7	GS04	Functional Group Creation Date		Must not be a future date.
C.7	GS08	Version Identifier Code	005010X222A1	Medicare expects value "005010X222A1".

Interchange Control (ISA/IEA), Functional Group (GS/GE), and Transaction Set (ST/SE) envelopes must be used as described in the TR3. Medicare's expectations for the Control Segments and Envelopes are detailed in Sections 6.1, 6.2, and 6.3.

6.1 ISA-IEA

Delimiters – Inbound Transactions

As detailed in the TR3, delimiters are determined by the characters sent in specified, set positions of the ISA header. For transmissions inbound to Medicare FFS, these characters are determined by the submitter and can be any characters as defined in the TR3 and must not be contained within any data elements within the ISA/IEA Interchange Envelope.

Delimiters – Outbound Transactions

Trading Partners should contact CGS for a list of delimiters to expect from Medicare. Note that these characters will not be used in data elements within an ISA/IEA Interchange Envelope.

Delimiter	Character Used	Dec Value	Hex Value
Data Element separator	*	42	2A
Repetition Separator	^	94	
Component Element Separator	>	62	5E
Segment Terminator	~	126	3E

Inbound Data Element Detail and Explanation

All data elements within the ISA/IEA interchange envelope must follow ASC X12N syntax rules as defined within the TR3.

6.2 GS-GE

Functional group (GS-GE) codes are transaction specific. Therefore, information concerning the GS/GE Functional Group Envelope can be found in Table 3.

6.3 ST-SE

Medicare FFS follows the HIPAA-adopted TR3 requirements.

7 Specific Business Rules

This section describes the specific requirements that CMS requires over and above the standard information in the TR3.

7.1 General Notes

Errors identified for business level edits performed prior to the Subscriber loop (2000B) will result in immediate file failure at that point. When this occurs, no further editing will be performed beyond the point of failure.

The billing provider must be associated with an approved electronic submitter. Claims submitted for billing providers that are not associated to an approved electronic submitter will be rejected. The following table describes segments/ elements not accepted by Medicare.

Table 4 – Segment / Elements Not Accepted by Medicare

Page #	Loop ID	Reference	Name	Codes	Notes/Comments
85	2000A	CUR	Foreign Currency Information		Medicare does not support the submission of foreign currency.

7.2 General Transaction Notes

The following are Medicare-specific general rules pertaining to the 837P transaction:

- The maximum number of characters to be submitted in any dollar amount field is seven characters. Claims containing a dollar amount in excess of 99,999.99 will be rejected.
- Claims that contain percentage amounts with values in excess of 99.99 will be rejected.
- For the exception of the CAS segment, all amounts must be submitted as positive amounts. Negative amounts submitted in any non-CAS amount element will cause the claim to be rejected.
- Claims that contain percentage amounts cannot exceed two positions to the left or the right of the decimal. Percent amounts that exceed their defined size limit will be rejected.
- Only loops, segments, and data elements valid for the TR3 will be translated. Submitting invalid data will cause files to be rejected.
- Medicare requires the NPI be submitted as the identifier for all claims. Claims submitted with legacy identifiers will be rejected. (Non-VA contractors)
- National Provider Identifiers will be validated against the NPI algorithm. Claims which fail validation will be rejected.
- The MAC will only accept claims for one line of business per transaction. Claims submitted for multiple lines of business within one ST-SE (Transaction Set) will cause the transaction to be rejected.
- Submissions with more than one GS-GE (Functional Group) per ISA-IEA (interchange) will be rejected.

8 Acknowledgments and Reports

CGS will provide acknowledgments and reports for submitted X12 version 005010 transactions.

Medicare has adopted three new acknowledgement transactions with the Version 005010 implementation: the 277CA, the 999, and the TA1 segment – which provides the capability for the interchange receiver to notify the sender that a valid envelope was received or that problems were encountered with the interchange control structure. These acknowledgments will replace proprietary reports previously provided by the MACs.

Medicare FFS has adopted a process to only reject claim submissions that are out of compliance with the ASC X12N Version 005010 standard; the appropriate response for such errors will be returned on a 999. Batch submissions with errors will not be rejected in totality, unless warranted.

8.1 Report Inventory

CGS does not provide any proprietary acknowledgments.

9 Trading Partner Agreement

EDI Trading Partner Agreements ensure the integrity of the electronic transaction process. The Trading Partner Agreement is related to the electronic exchange of information, whether the agreement is an entity or a part of a larger agreement, between each party to the agreement.

Medicare FFS requires all Trading Partners to sign a Trading Partner Agreement with CGS. This agreement can be found at <https://www.cgsmedicare.com/partb/edi/index.html>

Additionally, CGS requires the following: The CGS Trading Partner Agreement process is identical to our EDI enrollment and registration process.

10 Transaction-Specific Information

This section defines specific requirements that CMS requires over and above the standard information in the ASC X12N 837P TR3.

10.1 Header

The following sub-sections contain specific details associated with header.

10.1.1 Header and Information Source

The following table defines the specific details associated with Header and Information Source:

Table 5 – Header and Information Source

Page #	Loop ID	Reference	Name	Codes	Length	Notes/Comments
		ST	Transaction Set Header			
70		ST02	Transaction Set Control Number		9	The MAC will reject an interchange (transmission) that is not submitted with unique values in the ST02 (Transaction Set Control Number) elements.
		BHT	Beginning of Hierarchical Transaction			
71		BHT02	Transaction Set Purpose Code	00	2	Must equal "00" (ORIGINAL).
72		BHT06	Claim/Encounter Identifier	CH	2	Must equal "CH" (CHARGEABLE).

10.1.2 Loop 1000A Submitter Name

The following table defines the specific details associated with Loop 1000A Submitter Name:

Table 6 – Loop 1000A Submitter Name

Page #	Loop ID	Reference	Name	Codes	Length	Notes/Comments
	1000A	NM1	Submitter Name			
75	1000A	NM105	Submitter Middle Name or Initial			The first position must be alphabetic (A-Z).
75	1000A	NM109	Submitter ID		80	The MAC will reject an interchange (transmission) that is submitted with a submitter identification number that is not authorized for electronic claim submission. Submitter ID must match the value submitted in ISA06 and GS02.

10.1.3 Loop 1000B Receiver Name

The following table defines the specific details associated with Loop 1000B Receiver Name:

Table 7 – Loop 1000B Receiver Name

Page #	Loop ID	Reference	Name	Codes	Length	Notes/Comments
	1000B	NM1	Receiver Name			
80	1000B	NM109	Receiver Primary Identifier		80	The MAC will reject an interchange (transmission) that is not submitted with a valid Part B MAC code. Each individual MAC determines this identifier. Submitter ID must match the value submitted in ISA08 and GS03.

10.2 Billing Provider

The following sub-sections contain specific details associated with Billing Provider.

10.2.1 Loop 2000A Billing Provider Detail

The following table defines the specific details associated with Loop 2000A Billing Provider.

Table 8 – Loop 2000A Billing Provider Detail

Loop ID	Notes/Comments
2000A	The Billing Provider Detail Section of this CG contains no unique CMS Medicare requirements that differ from the TR3. Refer to the TR3 specifications for the following Loops: 2000A, 2010AA, 2010AB.
2010AA	REF: must not be present (non-VA contractors). NM109: billing provider must be “associated” to the submitter (from a Trading Partner management perspective) in 1000A NM109.
	CGS will provide appropriate direction to VA providers.

10.2.2 Loop 2010AA Billing Provider Name

The following table defines the specific details associated with Loop 2010AA Billing Provider Name.
